CAREER OBJECTIVE

Seeking a Data Engineering internship or entry-level position to leverage my expertise in Python, SQL, and advanced Web Scraping techniques. Highly focused on building robust data extraction pipelines and structured datasets to support data-driven decision-making in professional environments.

EDUCATION

Helwan National University | Oct 2022 – Present | Cairo, Egypt
Bachelor of Science in Computer Science and Artificial Intelligence

- **Relevant Coursework:** Data Structures, Database Management Systems (DBMS), Algorithms, Artificial Intelligence, Big Data Analytics.
- **Current Status:** Third Year Student.

TECHNICAL SKILLS

- **Languages:** Python (Advanced), SQL (PostgreSQL, MySQL), Java, C++.
- **Web Scraping:** BeautifulSoup4, Selenium, Scrapy, Requests, Playwright.
- **Data Engineering:** ETL Pipeline Development, Data Cleaning, JSON/XML Parsing.
- **Tools & Technologies:** Microsoft Azure (Data Factory, Synapse), Git, Docker (Learning), Linux (Mint/Cinnamon), Notion.
- **Soft Skills:** Analytical Thinking, Problem Solving, Continuous Learning, Bilingual (Arabic: Native, English: Fluent).

PROJECTS

Large-Scale Web Data Extraction Pipeline | Jan 2025 – Present

- Engineered a custom web scraping system using Python and Selenium to harvest market data from dynamic, JavaScript-heavy websites.
- Implemented data cleaning scripts to transform raw HTML into structured PostgreSQL tables, ensuring 98% data integrity.
- Integrated proxy rotation and custom headers to ensure reliable data collection and bypass basic bot detection.

EXPERIENCE

Data Engineering Trainee | Digital Egypt Pioneers Initiative (DEPI) | 2025 – Present
Microsoft Data Engineering Track

- Selected for an intensive national scholarship program by MCIT focused on end-to-end cloud data engineering solutions.
- Mastering Microsoft Azure tools, including Azure Data Factory for ETL orchestration and Azure Synapse for big data analytics.
- Gaining hands-on experience in cloud architecture, data warehousing, and Spark-based data processing.

Freelance Web Scraping Specialist | 2025 – Present
Self-Employed | Remote

- Developing custom scraping solutions for clients to extract business intelligence from various online directories and social platforms.
- Delivering high-quality, structured datasets in CSV, JSON, and SQL formats tailored to specific

client needs.

- Advising clients on data collection strategies and potential legal/ethical considerations of web scraping.

CERTIFICATIONS

- **Joining Data in SQL** | DataCamp | July 2024
- **Intermediate SQL** | DataCamp | April 2024
- **Introduction to SQL** | DataCamp | April 2024
- **Data Engineering Pathway** | Udemy | 2024 – Present

LANGUAGES

- **Arabic:** Native speaker.
- **English:** Fluent in reading and writing; proficient in professional communication.
